Ibrahim Ahmed

Software Engineer | ASP.NET & Full Stack .NET Developer

ibrahimsukeroo@gmail.com | +20 103 042 5144 | Cairo, Egypt | linkedin.com/in/ibrahim-ahmed-oo | github.com/Ibrahim-Suker

PROFESSIONAL SUMMARY

Final-year Computer Science student seeking an internship to apply hands-on experience in full-stack .NET development. Proficient in building scalable, secure web applications using ASP.NET Core MVC, C#, Entity Framework Core, and React. Experienced in designing clean layered architectures, developing RESTful APIs, and managing relational databases with SQL Server. Strong focus on application reliability through effective validation, exception handling, and clean code practices.

TECHNICAL SKILLS

Backend: C#, ASP.NET Core MVC, ASP.NET Web API, Entity Framework Core, Authentication & Authorization

Frontend: HTML5, CSS3, JavaScript, TypeScript, Angular, React, Bootstrap, Tailwind CSS, Razor Views

Databases: SQL Server, MySQL, Stored Procedures, Query Optimization, Oracle SQL Developer, Oracle APEX

Tools: Git, GitHub, Docker, Visual Studio, VS Code, Postman, Prompt Engineering

Concepts: RESTful APIs, N-Tier Architecture, Repository Pattern, Unit of Work, OOP, SOLID, Clean Code

EDUCATION

Bachelor of Computer Science *Aug 2022 – Present (Expected 2026)*

Higher Institute of Computer and Information Systems, 6th of October City, Egypt

Currently in Final Year (4th Grade), Last Semester

GPA: *3.2/4.0*

INTERNSHIPS

.NET Developer Intern | **Digital Egypt Pioneers Initiative (DEPI)** *Nov 2024 – May 2025*

- Completed a 6-month certified Full Stack .NET Web Developer program.
- Built and integrated 5+ web applications using C#, ASP.NET Core MVC, and Web API.
- Worked with SQL Server, Docker, Git/GitHub, and applied OOP and clean code principles throughout.
- Reduced repetitive development tasks by ~20% using Prompt Engineering techniques.
- Delivered end-to-end solutions covering backend logic, frontend interfaces, and database layers.

IT Trainee – Oracle APEX & Database | **Orascom Construction PLC** *Aug 2025*

- Completed a 2-week intensive training on Oracle APEX and relational database fundamentals.
- Designed and executed a relational mini-project using Oracle SQL Developer.
- Collaborated with cross-functional IT teams to align application and operations workflows.

PROJECTS

[Graduation Project] Blood Donation Management System | *ASP.NET Core Web API, React, SQL Server*

Frontend: github.com/Ibrahim-Suker/Front-BloodDonation *Backend:* *github.com/Ibrahim-Suker/BloodDonationSystem*

- Developed a full-stack platform to connect blood donors with hospitals and donation centers across Egypt.
- Built a RESTful API backend using ASP.NET Core Web API with JWT authentication and role-based authorization.

- Designed a React frontend with a responsive UI enabling donors to register, schedule donations, and track requests.
- Implemented relational database schema in SQL Server managing donors, requests, blood types, and hospital data.
- Applied N-Tier architecture with Repository Pattern ensuring clean separation of concerns and maintainability.

Expense Tracker | *ASP.NET Core MVC, EF Core, SQL Server*
GitHub: github.com/Ibrahim-Suker/Expense-Tracker

- Architected a personal finance system supporting income and expense tracking across 5+ categories.
- Implemented full CRUD workflows for transactions, categories, and budgets, improving query performance by ~25%.
- Delivered a responsive UI and multi-user authentication system.

Blog Platform | *ASP.NET Core MVC, Role-Based Authentication*
GitHub: github.com/Ibrahim-Suker/BlogPost

- Built a blog platform with role-based auth serving 100+ users and 500+ monthly content entries.
- Achieved 99% error-free deployment through structured validation and exception handling.

E-Commerce Application | *ASP.NET Core MVC, N-Tier Architecture, ASP.NET Identity*
GitHub: github.com/Ibrahim-Suker/DEPI-Ecommerce-MVC

- Scaled an e-commerce app managing 200+ product listings with Repository and Unit of Work patterns.
- Reduced code duplication by ~30% and delivered an admin dashboard for product and user management.

CERTIFICATIONS

Full Stack .NET Web Developer — Digital Egypt Pioneers Initiative (DEPI)*May 2025*
Foundational C# with Microsoft — freeCodeCamp*Dec 2024*
Database Fundamentals — Information Technology Institute (ITI)*Dec 2024*
PHP Full Stack Web Developer — Russian Culture Center Cairo*Jan 2025*
Oracle APEX & Database Training Program — Orascom Construction PLC*Aug 2025*
Business English Track – Round 2 — Digital Egypt Pioneers Initiative (DEPI)*May 2025*

LANGUAGES
